

PERFORMED BY CHAIN PROFILER

FOR CONTRACT ADDRESS: 0xcc8b870ddb18c211e376b306302c29b46afc3ab3

INITIAL DISCLAIMER

Chain Profiler provides due-diligence project audits for various projects . Chain Profiler does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Chain Profiler in no way takes responsibility for any losses, nor does Chain Profiler encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Chain Profiler does not endorse , recommend , support , or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

Chain Profiler KYC

Chain Profiler KYC is a service offered by Chain Profiler that allows projects to do a private face reveal matched with an I.D to allow founders / team members to privately Doxx themselves to Chain Profiler. In the event of an exit scam Chain Profiler will release a video of the founder, their name and country. Chain Profiler will only release a government issued ID to law enforcement, lawyers and partners.

The contract code is **verified** on BSCScan.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low / No Risk
Outdated Compiler Version	Complete	Complete	✓ Low / No Risk
Integer Overflow	Complete	Complete	✓ Low / No Risk
Integer Underflow	Complete	Complete	✓ Low / No Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low / No Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low / No Risk
Exposed _Transfer Function	Complete	Complete	✓ Low / No Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low / No Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low / No Risk
Use of Deprecated Functions	Complete	Complete	✓ Low / No Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low / No Risk
State Variable Default Visibility (x1)	Complete	Complete	✓ Low / No Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low / No Risk

The contract code is **verified** on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Contract Ownership

Contract Ownership has been renounced at the time of Audit

The contract ownership is renounced.

We have placed the contract deployer address below for your viewing:

[0x3f2ac6edabfbdf5ece7b48953d16705831fe4452](#)

The address above has no authority over the ownable functions within the contract.

This does not allow the owner to call certain functions within the contract.

Contract Code Audit – Owner Accessible Functions

Function Name	Visibility	Audit Notes
LC	public	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
Mentor_e	external	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
Mentor_es	public	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
RecoverBEP20	public	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
SetAsLiquidityPoolAccount	external	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
SetMarkMeta	external	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
Mentor_i	external	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
Mentor_is	external	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
renounceOwnership	public virtual	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.
transferOwnership	public virtual	onlyOwner modifier is detected. Owner can not call this function if because contract is renounced.

The functions listed above can not be called by the contract owner because ownership has renounced.

Contract ownership has been renounced, there is no way for the above listed functions to be called.

Liquidity Ownership – Locked / Unlocked

Token listed on PancakeSwap at the time of Audit

Liquidity Pool tokens are locked to the smart contract permanently.

Contract Code Audit – Mint Functions

This Contract Cannot Mint New MMT Tokens

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees ("tax") listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

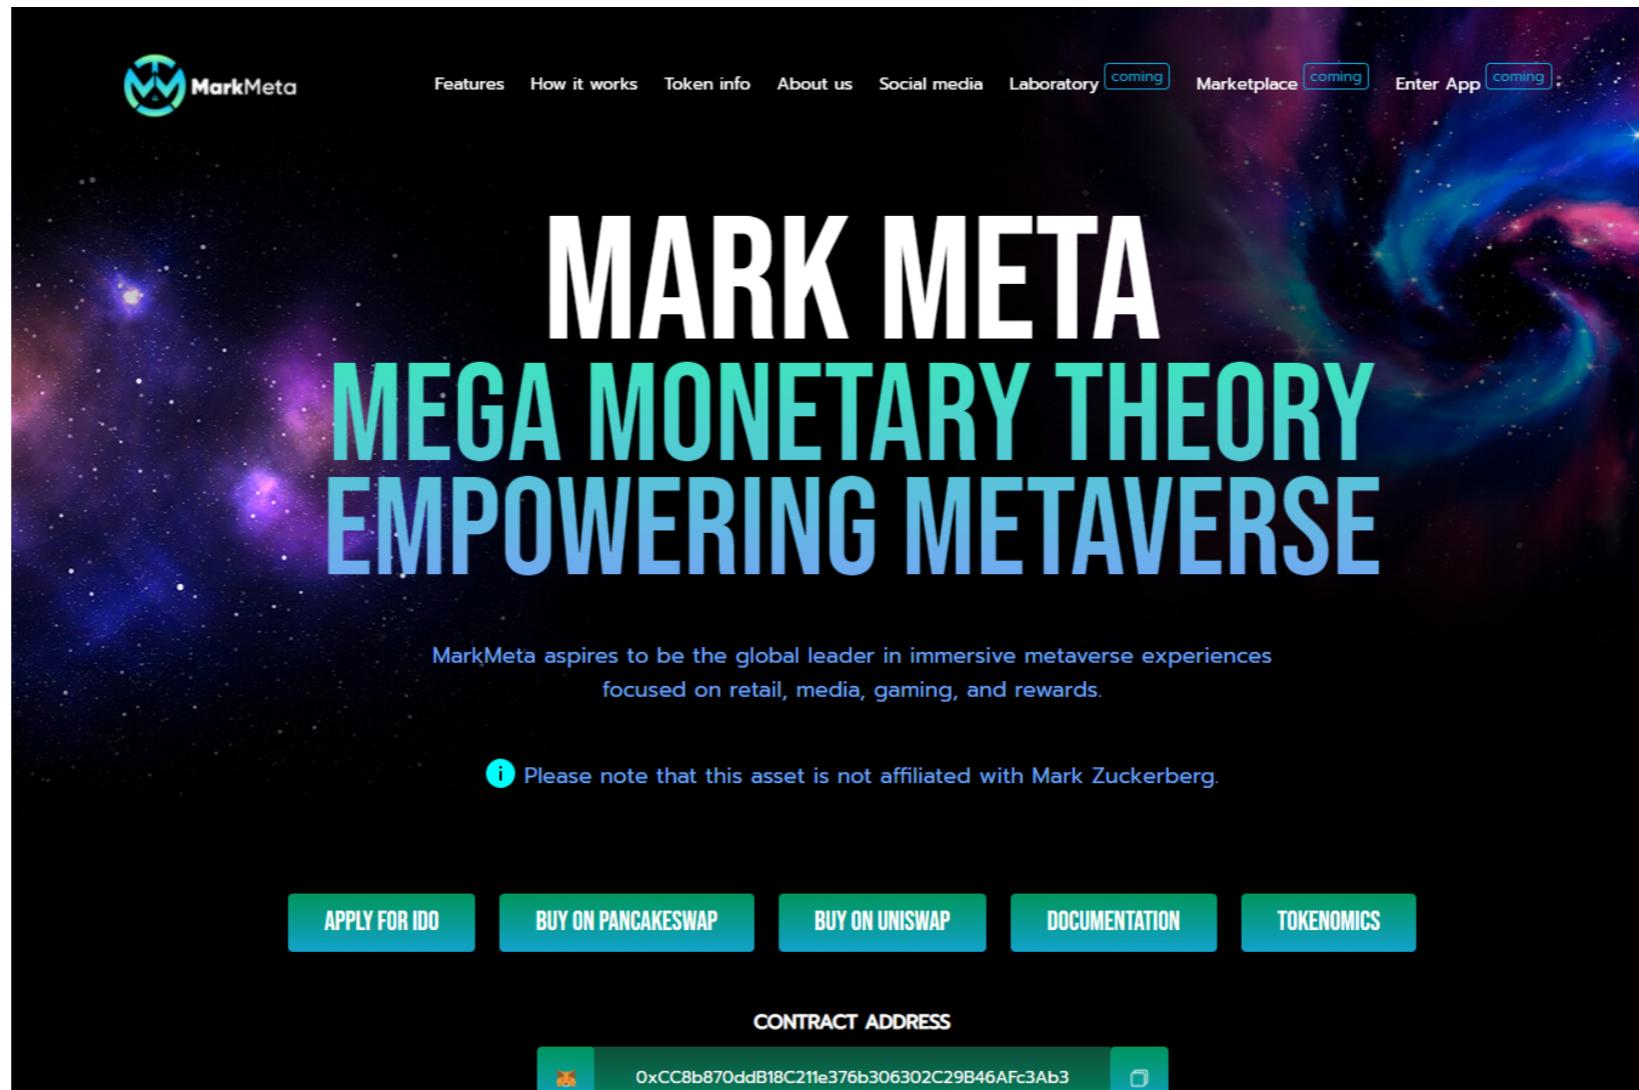

TAX FEE

7%

on each transaction

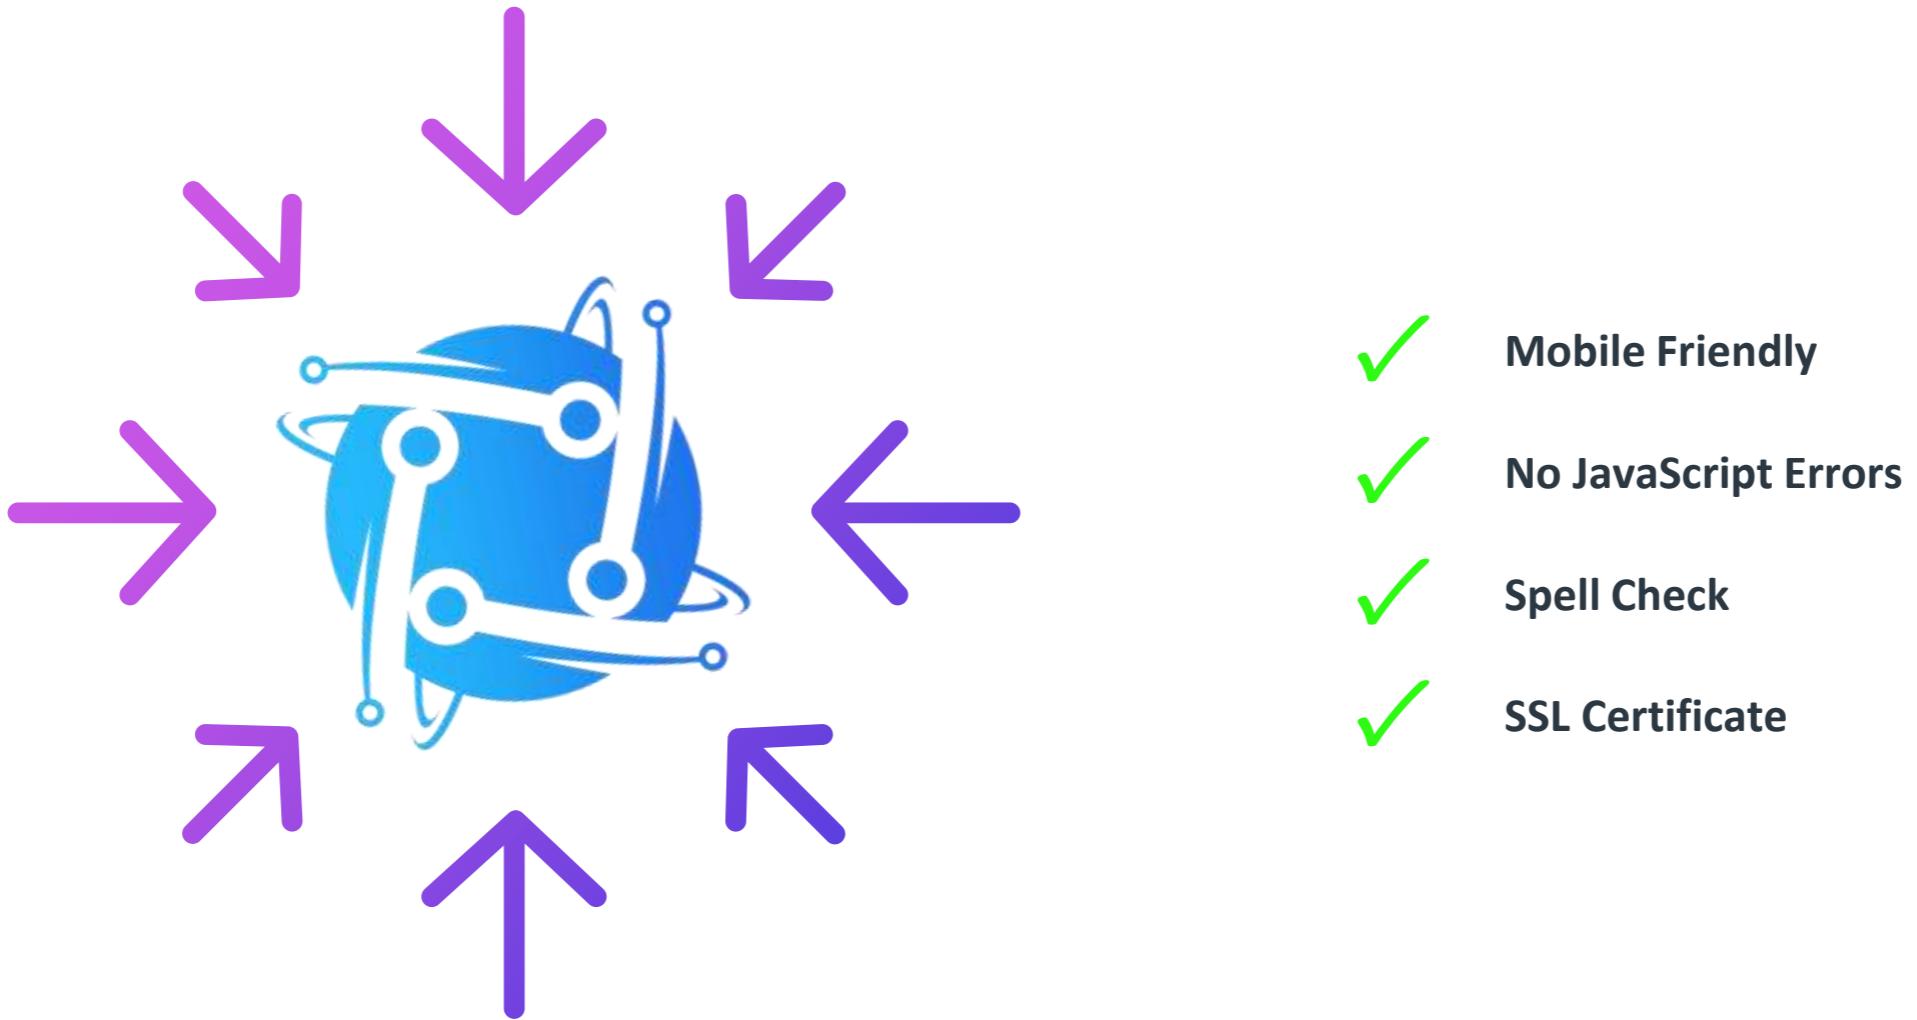

Website Part 1 – Overview

markmeta.finance

Above images are actual snapshots of the current live website of the project.

Website Part 2 – Checklist

- ✓ **Mobile Friendly**
- ✓ **No JavaScript Errors**
- ✓ **Spell Check**
- ✓ **SSL Certificate**

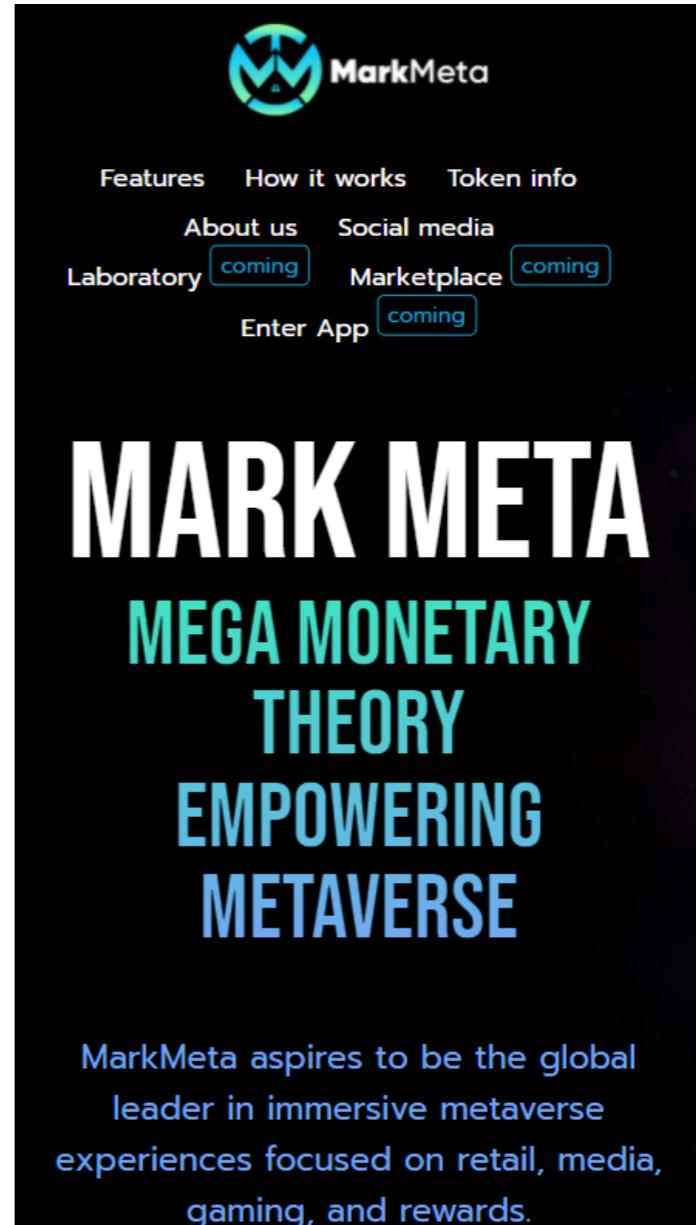

The website contained no JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: markmeta.finance

Issued by: Cloudflare

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

info@markmeta.finance

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

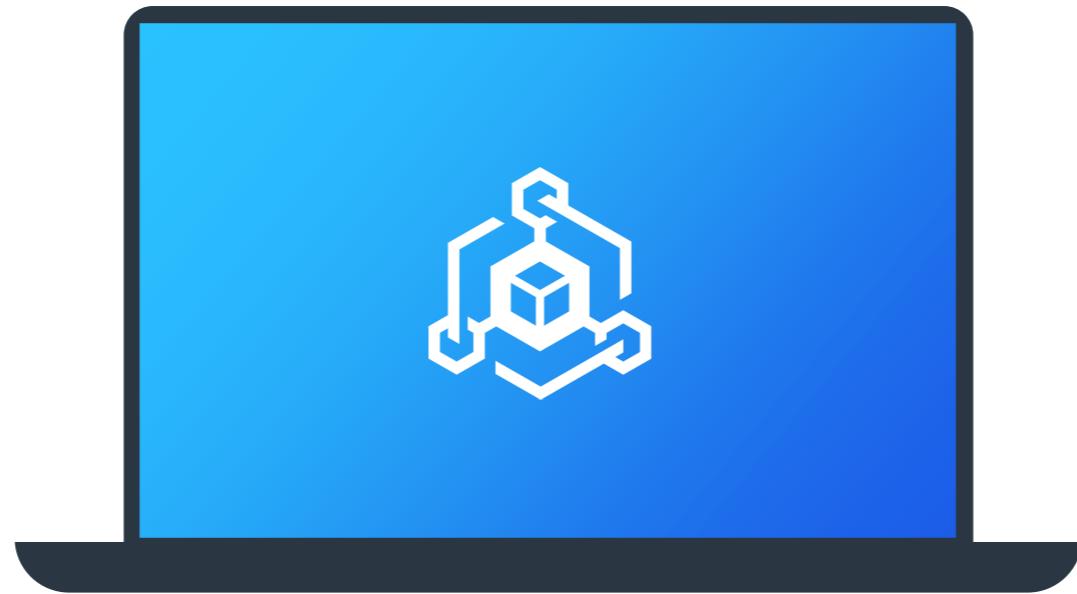

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[Reddit](#)

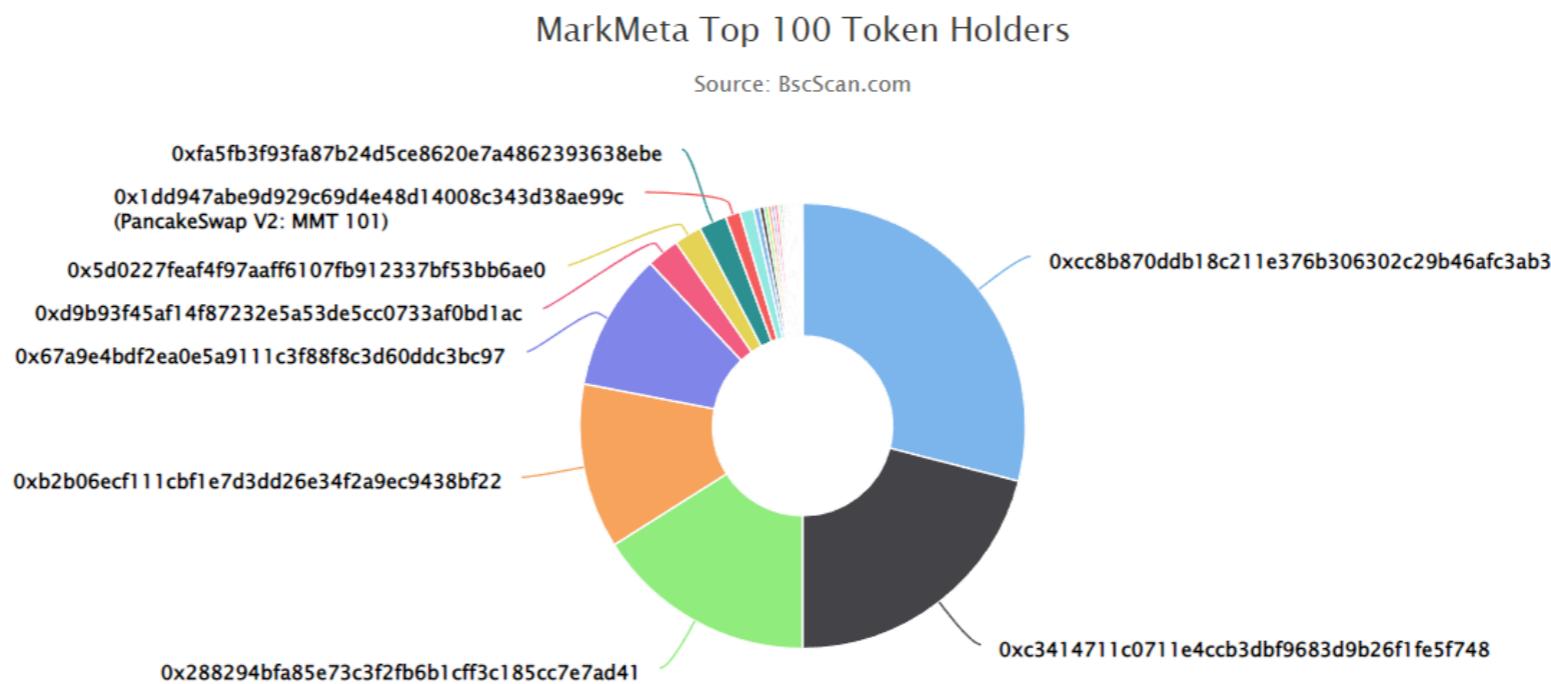

At least 3 social media networks were found.

Top Token Holders

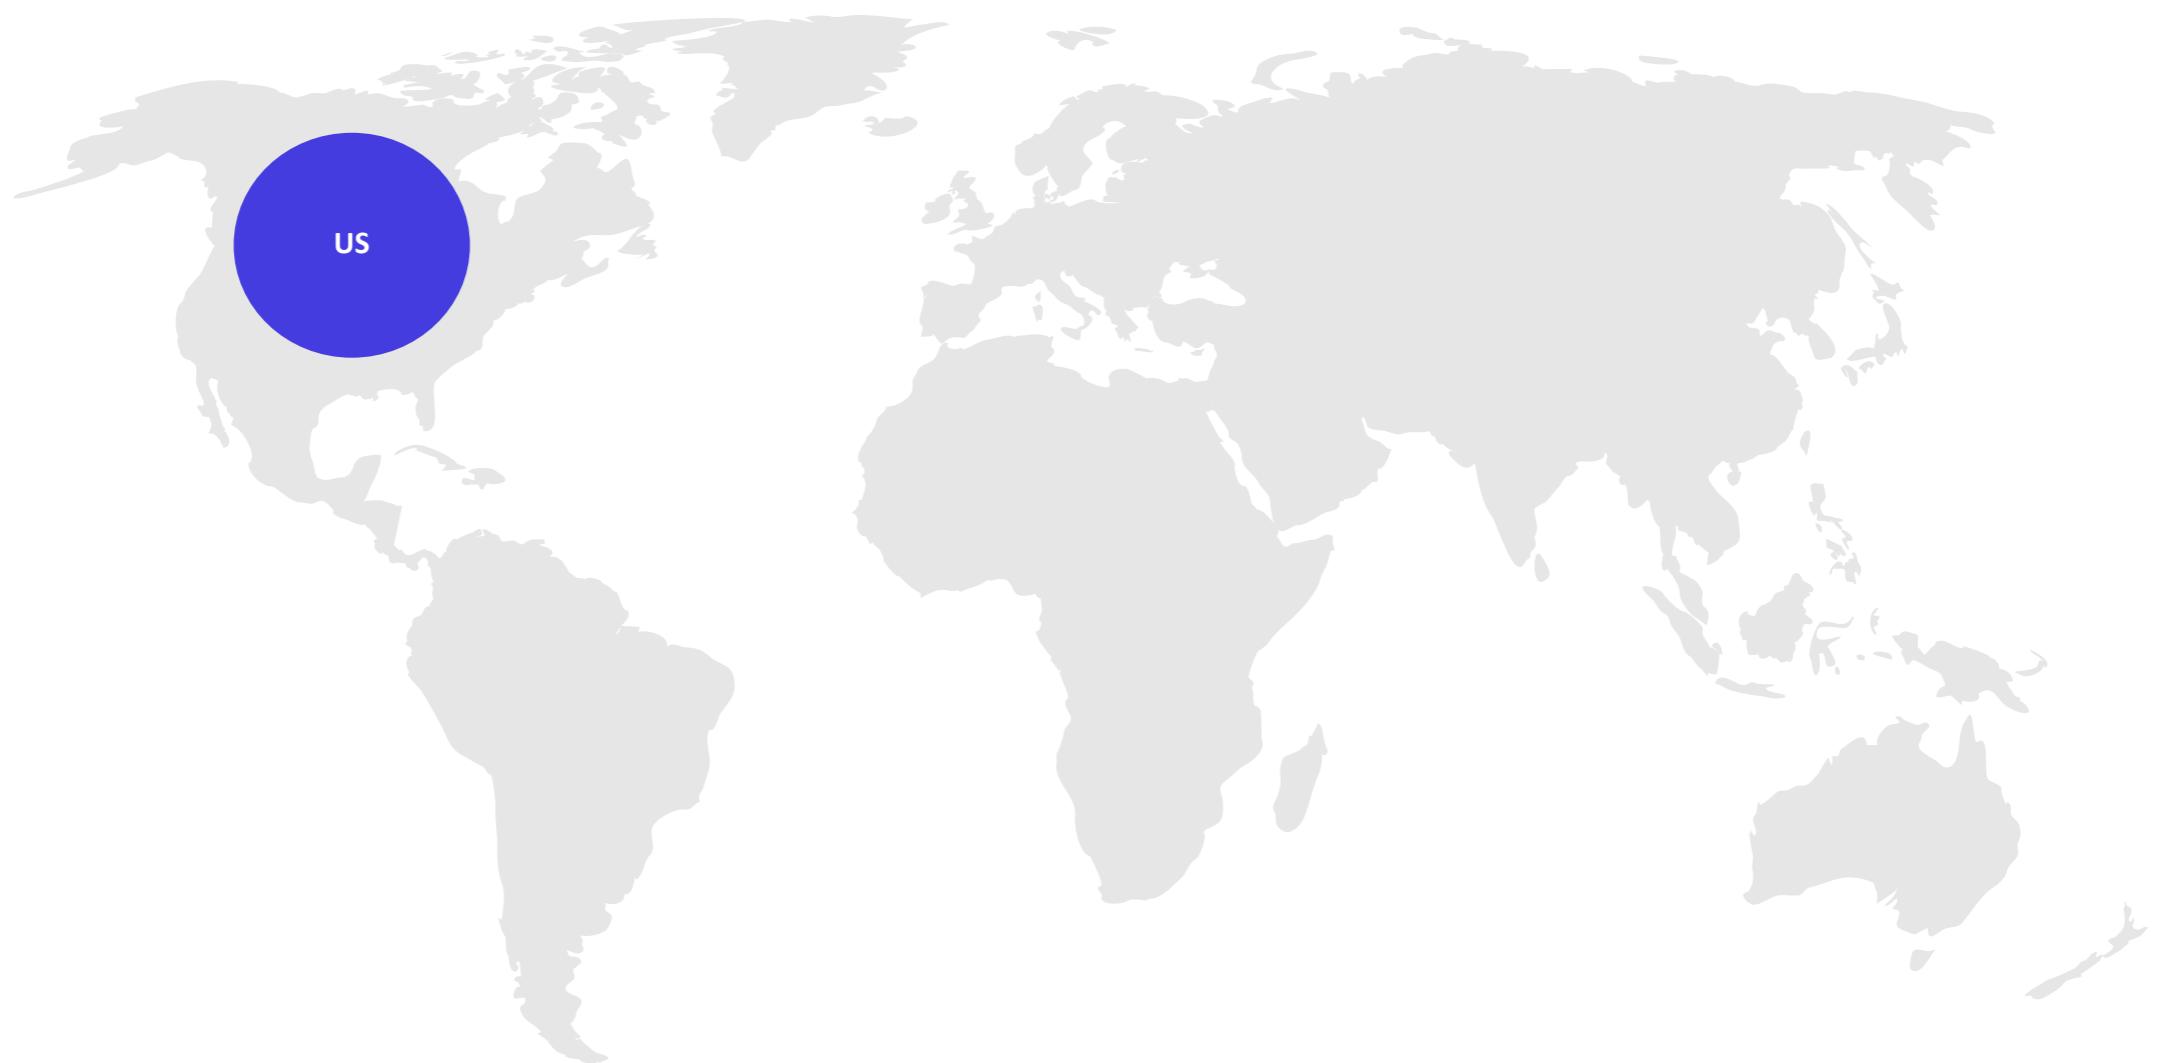

The 29% supply was in 1 smart contract and reserved for liquidity on DEX / CEX as claimed by the team and rest of the tokens are burned or locked verified by the audit report at the time of audit.

[Click here to view the most up-to-date list of holders](#)

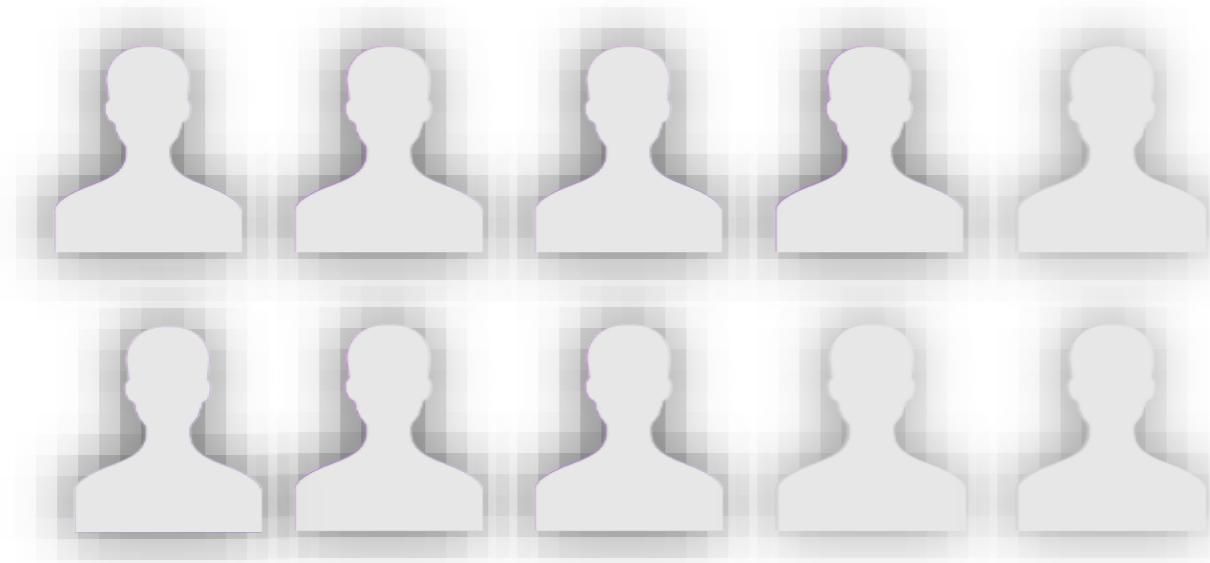

Location Audit

The primary location for the project has been declared as United States.

Team Overview

The Team is KYC verified. Chain Profiler KYC is a service offered by Chain Profiler that allows projects to do a private face reveal matched with an I.D to allow founders / team members to privately Doxx themselves to Chain Profiler.

Chain Profiler will only release a government issued ID to law enforcement, lawyers and partners.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing.

[View Full Road Map \(Click Here\)](#)

Disclaimer

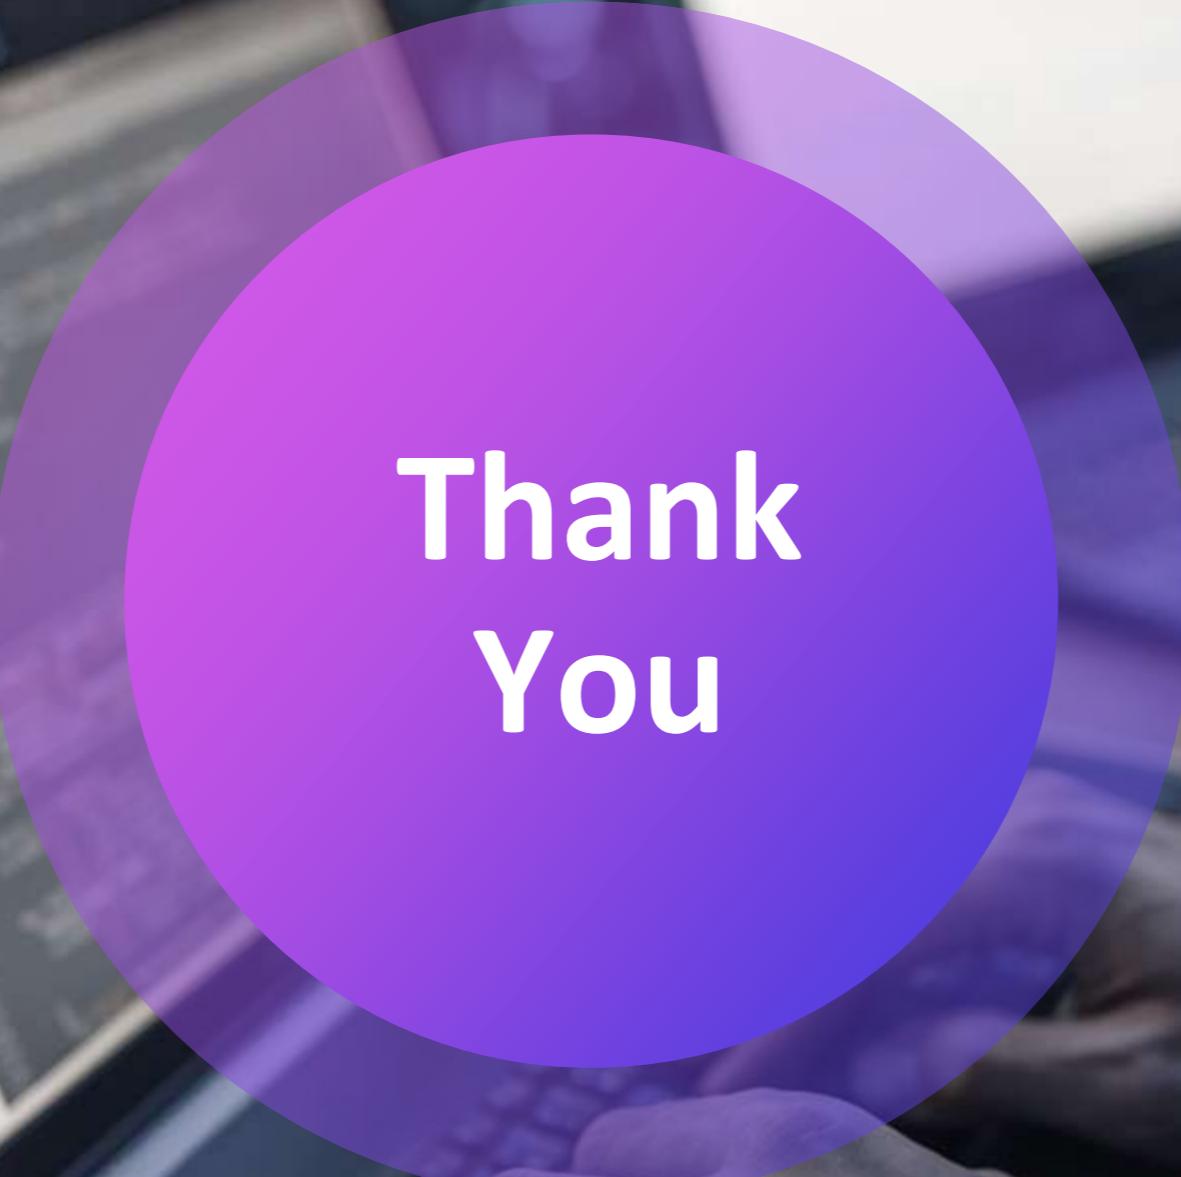

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Chain Profiler only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Chain Profiler lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Chain Profiler or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Chain Profiler assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Chain Profiler still has the possibility that the entire risk cannot be completely detected. Chain Profiler disclaims any liability for the resulting losses.

The final interpretation of this statement belongs to Chain Profiler.

Chain Profiler highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

THANK YOU!

Thank
You
